SUBJECT : CORPORATE FINANCE

MBA, MBA (A & M), FM&HRM, LSCM, MBA (M & F), RM, BM, FM, GM, HRM, IB, MM, BA

Time : 3 Hour

Max Marks : 100

Q.Code : M378

Answer Question No.1 (Part-1) which is compulsory, any eight from Part-II and any two from Part-III.

The figures in the right hand margin indicate marks.

Part-I

Q1 Answer the following questions : (2 x 10)

- What risks a company might face by not employing debt component in the capital?
- What is time preference of money?
- What is risk-return trade off?
- What are payback and discounted payback period?
- Why is operating leverage important?
- What are the important variables in designing a credit policy?
- What do you mean by capital gearing?
- What does the dividend irrelevance theory want to prove?
- What is stock dividend? What conditions should a company fulfill to declare this?
- Why are market value weights not preferred in WACC computation?

Part-II

Q2 Only Focused-Short Answer Type Questions- (Answer Any Eight out of Twelve) (6 x 8)

- What are the different methods to compute cost of capital?
- What are the different sources of long term finance commonly used by firms in India?
- Evaluate wealth maximization and profit maximization as primary objectives of a firm.
- ABC Ltd issues Rs. 100000, 9% debentures at a premium of 10%. The cost of floatation is Rs. 2500. The tax rate applicable is 50%. Compute the cost of debt-capital.
- What are the different alternative methods of evaluating investment proposals? Write in brief.
- What factors influence the determination of the capital structure of a company?
- Yes Company is considering an investment in a project requiring a capital outlay of Rs. 200000. Forecast of annual income of from the project after depreciation but before tax are as follows:

Year	1	2	3	4	5
Income	1,00,000	1,00,000	80,000	80,000	50,000

The company charges a depreciation rate of 20% flat and tax rate for the company is 40%. You are required to ascertain:

- Payback period
- NPV using 15% cost of capital
- The PVF at 15% are: 0.870, 0.756, 0.658, 0.572, and 0.497

- h) The following information is available in respect of a firm:
 Earning per share ; Rs. 20
 Rate of capitalization : 10%
 Calculate the market value of the company's quoted shares under Walter's Model if the dividend payout ratio is 0%, 50% and 100%, if it can earn a return of
- 15%
 - 10%, and
 - 5%
- i) Explain the importance of having adequate working capital.
- j) Discuss any two models for efficient cash management.
- k) From the following information, compute the working capital requirement for a company
- Annual sales 2,00,000 units
 - Selling price Rs. 8 per unit
 - Percentage net profit on sales 25%
 - Average credit period allowed to customer : 8 weeks
 - Average credit period allowed by suppliers :4 weeks
 - Average stock holding in terms of sales requirement: 12 weeks
 - Allow 10% for contingencies.
- l) What is the significance of capital budgeting? State its limitations.

Part-III

Only Long Answer Type Questions (Answer Any Two out of Four)

- Q3** Explain acceptability criteria under various techniques of capital investment proposals. **(16)**
- Q4** A company which has operating profit of Rs. 4,80,000 has a capital structure consisting of the following securities: **(16)**
 10% Debentures Rs. 15,00,000
 12% Preference shares Rs. 3,00,000
 Equity Shares of Rs. 100 each Rs. 12,00,000
 The company is in the 55% tax bracket
- Determine the EPS
 - Determine the percentage change in EPS, associated with 30% increase and 30% decrease in EBIT
 - Determine the degree of financial leverage
- Q5** Explain in detail the financing decisions generally taken by Finance Manager of a manufacturing company. **(16)**
- Q6** Discuss different methods of inventory control. Why shall a company be very much concerned for inventory control? **(16)**

Q.Code : M625

Answer Question No.1 (Part-1) which is compulsory, any eight from Part-II and any two from Part-III.

The figures in the right hand margin indicate marks.

Part-I

Q1 Answer the following questions: (2 x 10)

- What do you mean by Research?
- Write any two objectives of Research.
- What is a hypothesis?
- Why is research design needed?
- Why is Chi-square test used in the context of sampling analysis?
- Distinguish between Null hypothesis and alternative hypothesis.
- Write names of important methods of factor analysis.
- Why is report writing important?
- What is a popular report?
- Name the components which will describe the layout of the Research report.

Part-II

Q2 Only Focused-Short Answer Type Questions- (Answer Any Eight out of Twelve) (6 x 8)

- Explain the significance of Research in modern times.
- Distinguish between Research methods and Research methodology.
- What is a good research design? Is single research design suitable in all research studies? If not, why?
- What do you mean by the power of hypothesis test? How can it be measured?
- Define sample Design, what points should be taken into consideration by a researchers in developing a sample design for his research Project.
- Distinguish between Type-I error and Type-II error highlighting on acceptance region and rejection region.
- Explain the basic principles of ANOVA.
- Give a brief note on "factor analysis" highlighting on its merits and demerits.
- Describe the Precautions that the researcher should take while interpreting his findings.
- How many types of report are there? Explain each of them briefly.
- Write a short note 'Documentation' in the context of a research report..
- Explain the importance of oral presentation of research findings.

Part-III

Only Long Answer Type Questions (Answer Any Two out of Four)

- Q3** Describe the different steps involved in a research process. (16)
- Q4** "Research in much concerned with proper fact finding, analysis and evaluation". Do you agree with this statement? Give reasons in support of your own. (16)
- Q5** The procedure of testing hypothesis requires a researcher to adopt several steps. Describe in brief all such steps. (16)
- Q6** "Report writing is more an art that hinges upon practice and experience". Discuss. (16)

Time : 3 Hour

Max Marks : 100

Q.Code : M591

Answer Question No.1 (Part-1) which is compulsory, any eight from Part-II and any two from Part-III.

The figures in the right hand margin indicate marks.

Part-I

Q1 Answer the following questions: (2 x 10)

- Distinguish the operations in manufacturing and services industry.
- What is the aim of process analysis?
- What do you mean by job shop scheduling problem?
- What is the factor rating method for facility location problem?
- Define the term job enrichment.
- What is ABC analysis in inventory management?
- Define "Slack Time" with reference to project management.
- What is buffer stock?
- What are the control charts for variable?
- What do you mean by acceptance sampling?

Part-II

Q2 Only Focused-Short Answer Type Questions- (Answer Any Eight out of Twelve) (6 x 8)

- Discuss the primary goal of operations management within an organization?
- Explain in brief the roles and responsibilities of an operations manager.
- In a welding shop, a direct time study was done on an operation. An experienced industrial engineer conducted the study and recorded the cycle time as shown below table. He rated the workers 100% and used 10% allowance. Determine the standard time for the work.

Cycle Time (Mnts)	No. of times Observed
20	2
24	1
29	1
32	1

- What do you mean by facility layout? Explain the process layout.
- Discuss the objectives of assembly line balancing.
- Distinguish between P system and Q system of inventory management.
- Explain the basic concept of materials requirement planning.

h) XYZ company buys in lots of 500 boxes, which is 3-month supply. The cost per box is Rs.125/- and the ordering cost is Rs.150/-. The inventory carrying cost is 20% of unit value.

- a) What is the total annual cost of the existing inventory policy?
- b) How much money could be saved by employing economic order quantity?

i) Explain the need for aggregate planning

j) Six jobs A,B,C,D,E and F arrived at one time to be processed on a single machine, no jobs arrives afterward,

Job	A	B	C	D	E	F
Processing Time(mnts)	7	6	8	4	3	5

Determine the following shortest processing time (SPT) rule

- a) Optimal Sequence
- b) Completion time of jobs
- c) Mean flow time

k) Discuss in brief the level aggregate planning/strategy.

l) What do understand by supply chain, discuss how does effective supply chain management contribute to business success?

Part-III

Only Long Answer Type Questions (Answer Any Two out of Four)

Q3

Distinguish between PERT and CPM and state where they are used. Obtain the critical path and project duration for the following network diagram explaining steps. (16)

Q4

What do you mean by capacity planning? Explain in details the capacity requirement planning (CRP). (16)

Q5

What do you understand by facility location problem? Discuss in details the factors influencing the facility location. (16)

Q6

Write the note on the following (8x2)

- a) ISO 9000
- b) Total Quality Management
